Migun Thermal Massage System

Simply lie back, relax, and take your first step to a healthier lifestyle.

HY-7000

How does the Migun Thermal Massage System stand apart?

Migun: The name you can trust for your massage needs and more.

Migun was established in 1988 in South Korea with the goal of developing and manufacturing the best thermal massage products. After more than 5 years of clinical studies at various Oriental Medicine schools in Korea, Migun introduced its first thermal massage product, HY-200 Personal Thermal Physiotherapeutics in 1993. Subsequently for the next 10 years, Migun has continued in its quest to be the best. This innovative spirit is what drives us to bring you the finest product possible.

Recognized as a leading thermal massage product manufacturer, Migun has received numerous recognition and awards for its industry-leading innovations:

- Golden Industrial Merit Award on Invention Day (Korea) in 2001.
- Grand Prize Award/Golden Awards/Special Award from Seoul International Invention Fair in 2002.
- Golden Award from Korean Technology Patent Contest in 2000 and 2002.
- Golden Award/Special Award from International Invention Patent Expo in Switzerland.
- "Promising Company" recognition by Hana Bank in Korea.
- "Best Product of the Year" recognition in 2000.
- "ISO9001" Certificate acquisition in 2001.
- "Member of World's Number 1 Product Certified Company" recognition in 2002.
- Official sponsor of Korean Football Association.
- Official sponsor of Korean Pro-Golf Association.

In 1999, Migun entered the U.S. market, bringing the amazing therapeutic benefits of its Thermal Massage System to the American consumer. We now have 50 free demonstration centers throughout the country and are adding more every month.

You can find Migun in the United States, Canada, Mexico, Brazil, Argentina, China, Philippines, Indonesia, Vietnam, Australia, Germany, Saudi Arabia, Egypt, Jordan, The United Arab Emirates, Sudan, Pakistan, Singapore and Lebanon.

The innovative idea of merging the best of traditional Eastern medical wisdom and Western medicine and the relentless pursuit of making the best thermal massage product have truly created a masterpiece. Experience the best. Experience the Migun Thermal Massage System. It's an experience like none other.

An experience speaks a thousand words, right?

The word is out: Testimonials*

Here are what people had to say about their Migun Experience.

"For the past 2 years, I've had to strain a lot to reach upward with my arms or behind my back, and I'm not straining anymore. The other thing is my ankle was really bothering me yesterday morning. It started, and it was consistent all morning long. I came in the afternoon, and after I left, it had completely gone away. It still hasn't gone back, so I was really encouraged by that!"

- Lindsey Warthan

"The Migun Therapeutic bed has helped my lower back flexibility and being able to reach further by bending over, being able to touch my toes. It's really helped me to be more flexible. I really think it's a great program, I've recommended it to a lot of people."

- Douglas Hagen

"Since that experience, I have not had any pain. This has been for about 10 months now, so I'm very grateful, and I did purchase a table to have at home. So, not only I, but my wife and kids have the opportunity to experience it daily, so it's been wonderful."

- Barb Marcille

"I could do things I couldn't do before, like breathing deeply like a real human being. My sense of balance came back, increased energy, increased stamina. The list goes on. Sleep better, have a better appetite."

- David Phillips

"I love it. We've told everybody that has physical problems about it. I had 2 operations on my left shoulder, and my right arm is the same. It was so bad they wouldn't operate on it. The thing that is completely gone is the pain. You could never get in a comfortable position to sleep, and after a few treatments, the pain went away."

- Diane Anderson

"After I came here about 3 weeks, I don't feel the pain anymore. I don't take painkillers like I usually do. I am a high blood pressure patient and on medication at all times, and my blood pressure is normally 160 over 100. And after using Migun for 3 weeks, 2-3 times a week, I went back to my doctor, and my heart blood pressure had gone down to 140 over 78. She was so shocked, and so was I, and that's the lowest number I've had for years."

- Peter Gardner

"For a number of years, I have not been able to lay flat on my back. But after the 3rd day, I got rid of the towel under my back, and even in my bed at night, I can now lay on my back, and this is the first time in years. For 19 years, I had not been able to lay on my back. Even people who don't have health problems, chiropractic says maintain your body, have health maintenance, preventative medicine, ok. so it's for everybody. We have recommended this to some of our friends. It's for any and everybody!"

- Ann Carey

*The above testimonials have not been evaluated by Food and Drug Administration.

It's all about you: Customer Satisfaction

What's the latest from Migun?

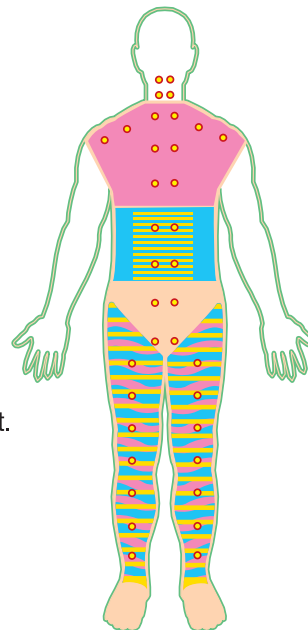

The all new **HY-7000** Migun Thermal Massage System

Following the success of The HY-5000, Migun now introduces the latest thermal massage system with more features to give you an even better massage, utilizing the principles of acupressure, acupuncture, moxibustion, far infrared rays, and chiropractic. The best got even better.

With 6 different modes of programmed massages and a manual mode for customized massages, the HY-7000 provides just what you need to feel rejuvenated, revitalized, and relaxed.

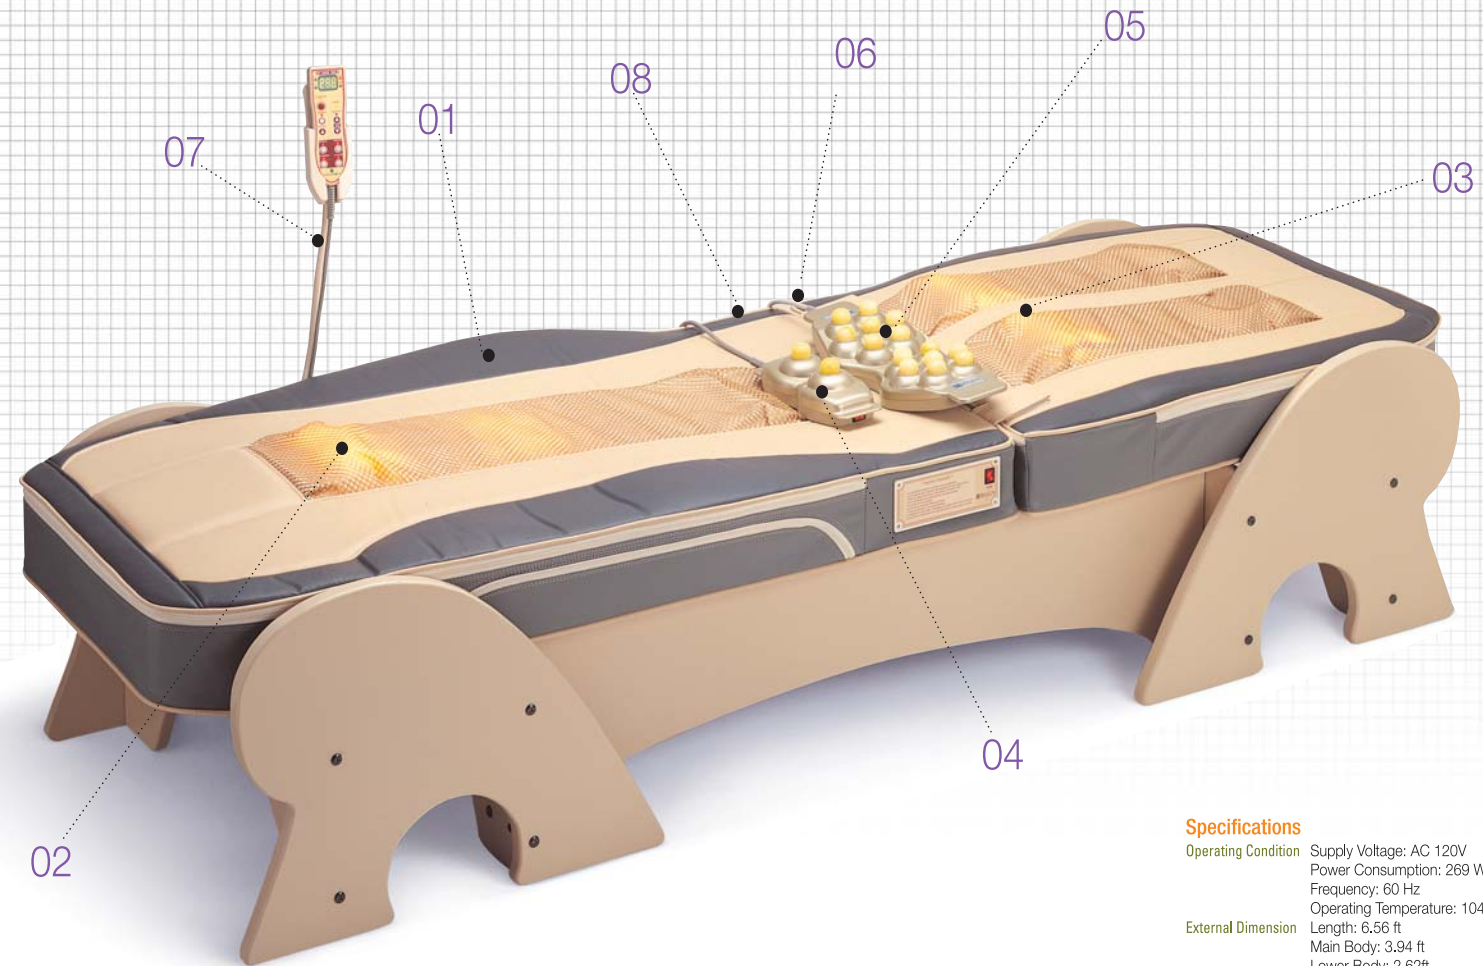

[AUTOMATIC PROGRAM]

- PROGRAM 1** Full length massage and acupressure treatment specifically to the back, waist, and legs.
- PROGRAM 2** For the upper back and legs.
- PROGRAM 3** For the lower back and legs.
- PROGRAM 4** For acupressure treatment. (Heads stop for one minute at various acupressure points, providing pressure and heat)
- PROGRAM 5** For full length massage without acupressure treatment. (Continuous without acupressure stop.)
- PROGRAM 6** For abdomen area and legs. (WHILE LYING ON YOUR STOMACH – Continuous soothing massage of abdomen and legs.)

[MANUAL PROGRAM]

Use the hand-held remote to control the massage speed and stop-and-go movements of the massage heads.

Weight	Main body: 63.93 lbs Lower Body: 40.12 lbs Frame: 45.64 lbs Total: 149.69 lbs

The all new HY-7000 boasts improved and innovative features for even better results.

01. Wider and longer size
The HY-7000 is larger to accommodate different types of users. Designed for comfort, maximum support, and individual adjustment.

02. Internal 5-way jade massage heads
These ergonomically designed massage heads provide an acupressure/heat massage, following your spine from your tailbone, to your lower back, and all the way up to your neck and head.

03. Internal lower-body 5-way jade massage heads
A new feature of the HY-7000 is a set of massage heads for the legs and calves, to help with circulation, and aid in reducing varicose veins.

04. External 2-way jade massage heads
They are perfect for hemorrhoids, prostate and other areas needing additional help.

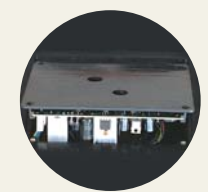

05. External 15-way jade massage heads
They are convenient for the acupressure-type and thermal massages on the stomach, back, waist, and other largely exposed areas of the body.

06. Safe connectors
Connector cables are neatly grouped on the back for a clean look and safe operation.

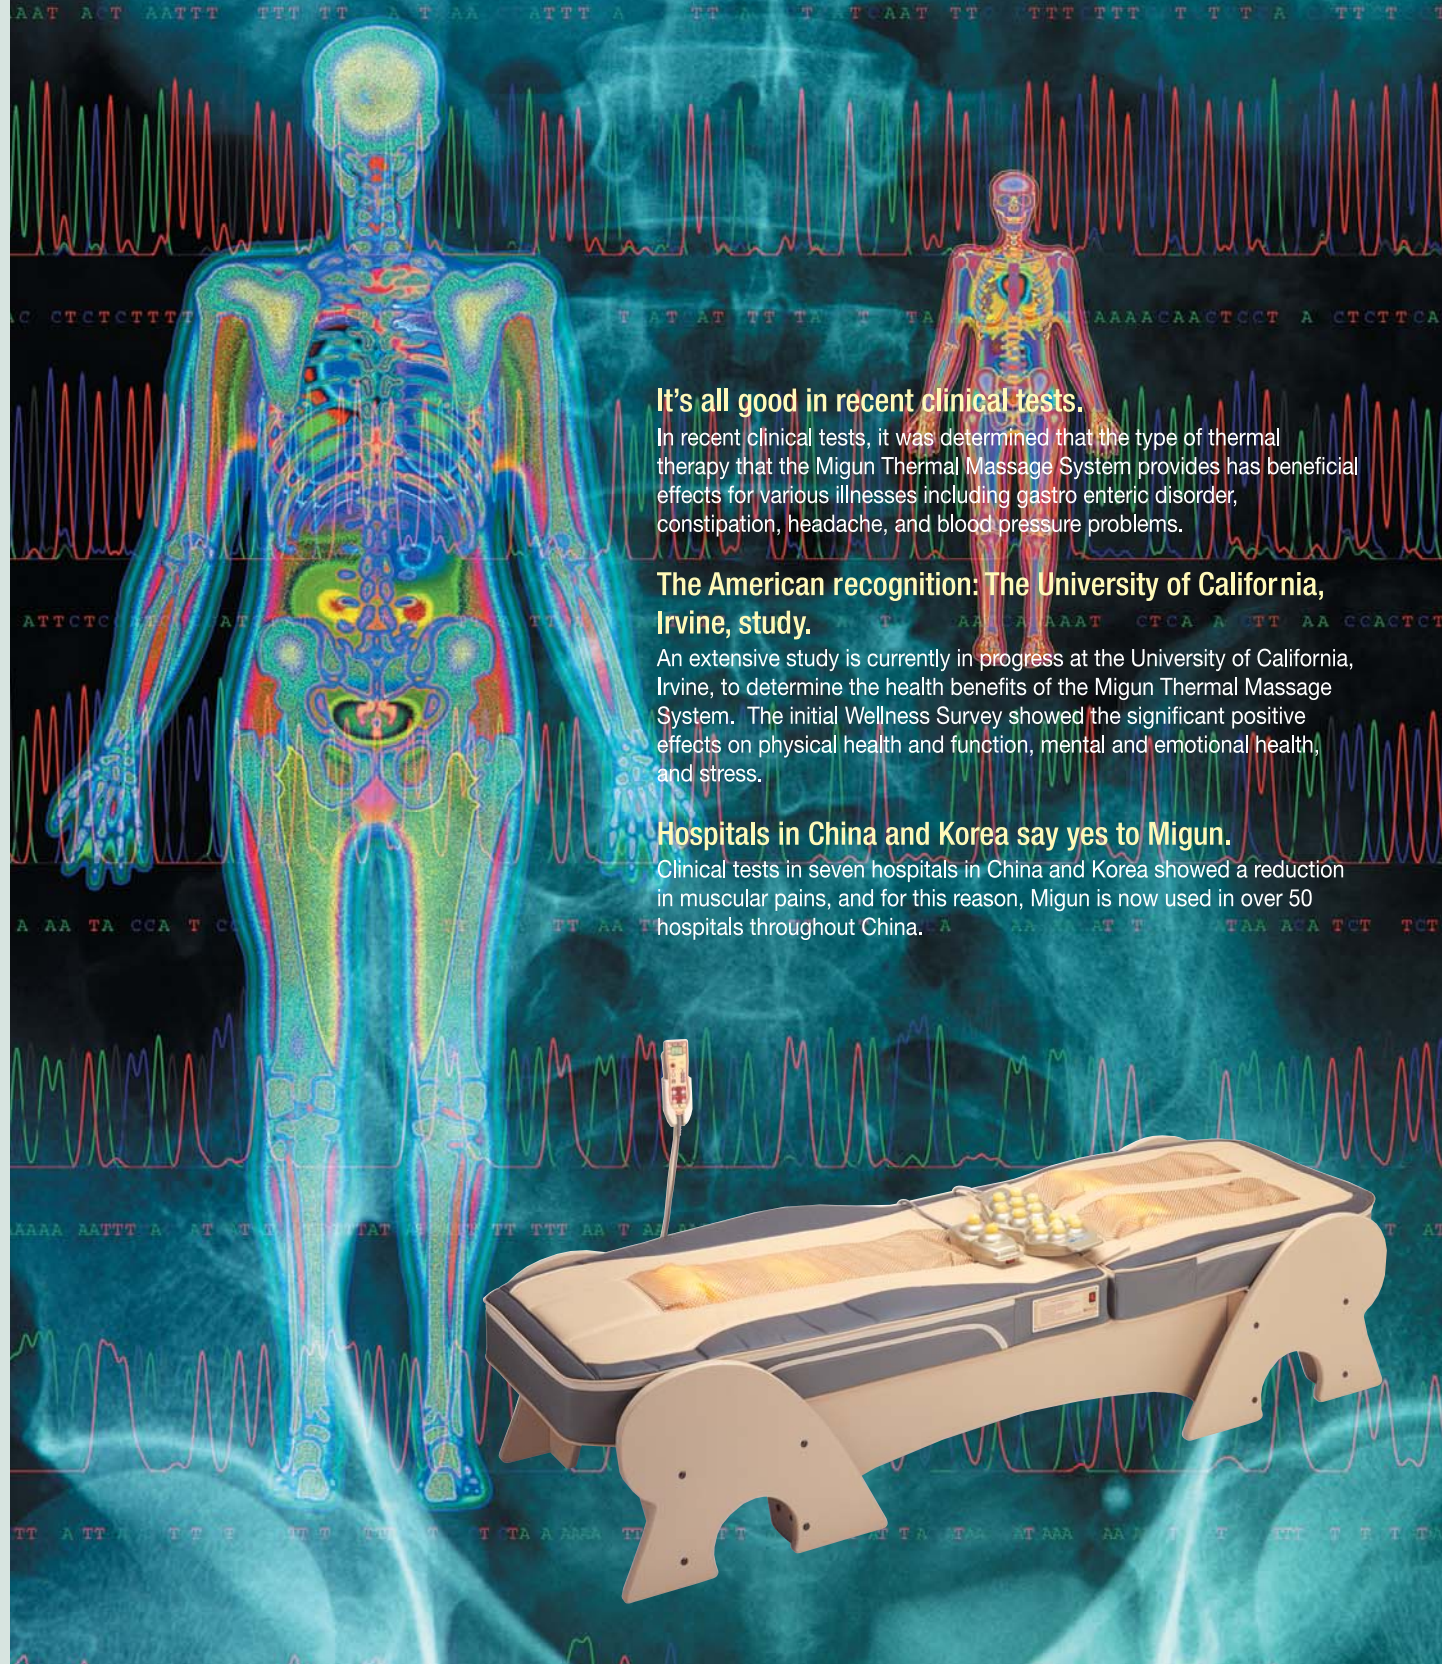

07. User-friendly remote control
All controls are at your fingertips with our easy-to-use remote.

08. Easy maintenance
This model is designed for many years of trouble-free use.

How good is the Migun Thermal Massage System?

It's all good in recent clinical tests.

In recent clinical tests, it was determined that the type of thermal therapy that the Migun Thermal Massage System provides has beneficial effects for various illnesses including gastro enteric disorder, constipation, headache, and blood pressure problems.

The American recognition: The University of California, Irvine, study.

An extensive study is currently in progress at the University of California, Irvine, to determine the health benefits of the Migun Thermal Massage System. The initial Wellness Survey showed the significant positive effects on physical health and function, mental and emotional health, and stress.

Hospitals in China and Korea say yes to Migun.

Clinical tests in seven hospitals in China and Korea showed a reduction in muscular pains, and for this reason, Migun is now used in over 50 hospitals throughout China.

How does the Migun Thermal Massage System work?

The ultimate therapeutic collaboration of East and West.

The Migun Thermal Massage System uniquely integrates the thousands of years of traditional Eastern medical wisdom with the technological advancements of Western medicine to provide you with a massage like none other.

Simply lie back and relax. Let the Migun Thermal Massage System work for you, providing you with the best massage treatment, utilizing the principles of acupressure, acupuncture, moxibustion, far infrared rays, and chiropractic.

It's more than a massage. It's a new approach to a healthier lifestyle.

The proven oriental therapeutic techniques.

All massages are not the same. Simply putting pressure on tired muscles is not what the Migun Thermal Massage System is about.

Through extensive research and development, the Migun Thermal Massage System utilizes some amazing principles found in both Eastern and Western Medicines.

Acupressure/Acupuncture Points

The traditional Eastern medicine has discovered that particular points on the body are "connected" to various organs in the body, and the majority of these pressure points are located near the spine.

The Migun Thermal Massage System targets these pressure points along the spine with a precise and relaxing massage, thanks to the ergonomically designed jade massage heads, and offers the same therapeutic benefits as with an acupressure or acupuncture session.

Moxibustion and Helium Bulbs/ Far Infrared Rays

Moxibustion is an Eastern medical treatment where heat is applied to the acupuncture points by burning moxa, dried species of mugwort, on the tips of the needles. Providing heat to these specific points stimulates and encourages better blood circulation.

The Migun Thermal Massage System utilizes one of the Western medical wonders, helium gas bulbs that produce far infrared rays, to effectively deliver the heat deep into the body, 4,5 times better than the usual moxibustion procedure.

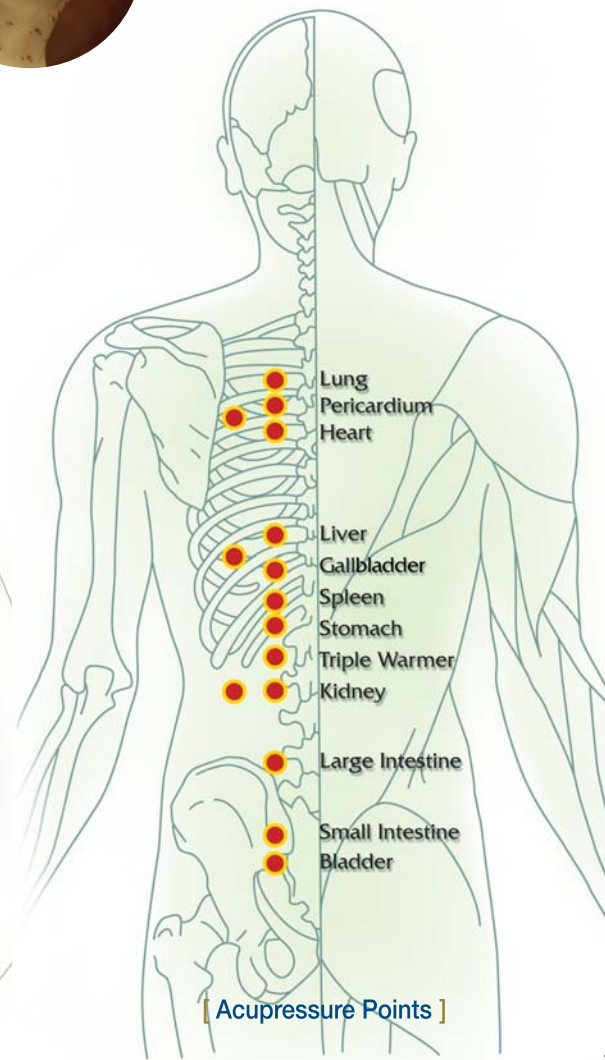

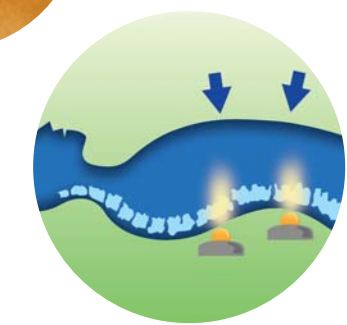

Jade

For thousands of years, jade has been known as a mysterious healing stone in Oriental Medicine. In the past, the Chinese and Korean royal families treasured it for its miraculous effects on human body. When heated, jade emits negative ions that are essential for the body's natural anti-aging system.

With this valuable understanding in mind, the Migun Thermal Massage System features the jade massage heads that enclose the helium gas bulbs.

As you can see, the Migun Thermal Massage System is more than just a massage bed.

It is a technological wonder that blends the best therapeutic knowledge of East and West.
